● ABOUT ME

Experienced Senior Software Developer with M.Sc. degree in Data Engineering and extensive professional history in software development. Skilled in Android Native Apps (Java/Kotlin), iOS (Swift), Backend (Node.js), AI ChatBot Development and Workflow Automation, Also have skills in Data Analytics with Power BI, with a proven track record of delivering high-quality software solutions. Seeking to leverage expertise in Mobile Apps development, Data Engineering projects and/or full-stack development in a challenging role.

● WORK EXPERIENCE

SENIOR SOFTWARE DEVELOPER – GENETECH SOLUTIONS, INC – 1 Nov 2018 – Current – KARACHI, PAKISTAN

- Expertly provided subject matter expertise in Android and Node.js development while patiently mentoring junior developers.
- Strategically contributed to the architectural design and development of highly scalable mobile applications.
- Designed, developed, and maintained complex Android and Node.js applications, seamlessly integrating AI-based chatbots with DialogFlow, OpenAI, and Google's Gemini APIs.
- Proactively collaborated with clients to consistently exceed project expectations.

SENIOR ANDROID APPLICATION DEVELOPER – GENETECH SOLUTIONS INC – 1 Nov 2014 – 30 Oct 2018 – KARACHI, PAKISTAN

- Designed, developed, and maintained complex Android applications.
- Successfully published various Android applications on the Google Play Store.
- Implemented offline storage solutions and efficiently optimized performance for multi-threaded applications.

ANDROID APPLICATION DEVELOPER – GENETECH SOLUTIONS – 1 Oct 2012 – 30 Oct 2014 – KARACHI, PAKISTAN

Began my career as a junior developer, enthusiastically contributing to Android application development and rapidly building expertise in Java, the Android SDK, and seamlessly integrating third-party libraries and APIs.

● SKILLS

Javascript(Nodejs, ExpressJs) | Android Studio with Java | Backend Development (Kotlin, Node.JS, Python) | Object-Oriented Programming | Chatbot (Google DialogFlow) | MySQL, SQLite, Oracle, Firebase(NoSQL) | IOS (Objective-C, Swift) | NoSQL (firebase realtime database MongoDB) | Google Gemini | OpenAI ChatGPT | n8n | Data Analytics | Github | Kotlin | Swift | Claude | Antigraity | Github Co-pilot

● PROJECTS

Le Bijou - JamesApp

The James app acts as a remote control for the apartment. Set the lighting (Using Loxone mini-server), the music and the mood at the touch of a button. Talk to James or get in touch with one of our team. Order laundry, transport, in-room dining, or simply check the weather exactly where you plan to go, when you plan to go.

Link <https://lebijou.com/services>

Mr. Q (ChatBot)

Mr. Q is a multilingual conversational Telegram chatbot developed using Node.js and integrated with DialogFlow NLP for intent detection. It offers a wide range of robust features, including:

- **Task Management:** Sending reports, setting reminders, and creating tasks via Todoist integration.

- **Apartment Assistance:** Handling queries about apartment details, sauna usage, addresses, WiFi credentials, and more.
- **Cleaning Operations:** Commands for tracking cleaning, refreshing, and quality assurance processes.
- **Small Talk:** Engages in casual conversations, shares jokes, and responds to user inquiries.

Mr. Q streamlines tasks, enhances apartment management, and provides user-friendly interaction for various needs.

2 JUL 2016 – 12 AUG 2018

Islamic Library

- Android app Islamic Library is a free online library that provides access to thousands of Islamic books on the go.
- Scanned and converted very old islamic books that were not available digitally on the internet
